## Education

B.Com (Accounting & Finance) | Mohammed sathak college of arts and science  
SSLC & HSC | Shanthosh Vidyalyaya Matric. Hr. Sec. School

May2021 – Apr 2024  
Chennai

## Relevant Coursework

**Data Visualization:** Tools and techniques to communicate data insights through charts, dashboards, and presentations.  
**Data Modeling:** Basics of database design, ER diagrams, normalization, and schema design.

## Internship

### Shanthi IT Solution

Data Analytics Intern 📄

June 2025 – Oct 2025  
Chennai

- Assisted in data collection, cleaning and preprocessing for client business datasets using SQL & Excel.
- Created interactive Power BI dashboards to visualize sales trends, customer behavior, and product performance.
- Generated weekly reports with KPIs, charts, and actionable insights to support business decisions.
- Automated repetitive data tasks using DAX measures, reducing manual reporting time and improving accuracy.
- Collaborated with the analytics team to support real-time client projects, improving presentation and problem-solving skills.

## Projects

### IPL Data Analysis Dashboard | Power BI, DAX, Data Visualization 📄

Mar-2025

- Cleaned and analyzed IPL datasets using Excel and Power BI to explore player performance and team patterns.
- Built a dynamic dashboard showing match trends, player stats, best performers, and team comparisons.
- Highlighted insights like top run scorers, strike rate differences, win percentage trends, helping identify key performers.

### Movie Analytics Dashboard | Power BI, Excel, Data Visualization 📄

Feb-2025

- Collected, cleaned, and analyzed 5K+ movie and TV show titles using Excel and Power BI.
- Designed a visual dashboard showcasing genre popularity, country-wise production, rating distribution, and release trends.
- Implemented interactive filters to compare movie vs. TV show counts, ratings breakdown, and yearly release growth.
- Delivered insights on audience preferences and global production trends, improving decision-making for content selection.

## Technical Skills

### Data Tools & Languages:

- SQL
- MS Excel
- Power BI
- Python
- Tableau

### Analytical Skills:

- Data Wrangling & Cleaning
- Problem-Solving with Data
- Translating Insights into Reports

### Core Strengths:

- Quick Learner
- Adaptable
- Detail-Oriented
